JIM "DOC" EWELL **1919 - 1993**

The 1994 Houston Astros Media Guide is dedicated to the memory of longtime trainer Jim "Doc" Ewell, who passed away on December 23, 1993.

The popular Ewell had worked with the Houston baseball franchise since the club's inception. He had been Houston's only trainer since the Colt .45s entered the National League for the 1962 campaign. Upon his retirement after the 1978 season, he continued to serve as trainer emeritus, working with the team throughout the season and during spring training.

Ewell was trainer for four All-Star Games. In 1989 he was honored by the Houston Chapter of the Baseball Writers Association for long and meritorious service to the game.

Ewell began his long association in Houston after working for the Kansas City Athletics (1955-61) and New York Yankees (1950-54). A baseball career of more than 50 years began when Ewell broke into professional baseball in 1938 with his hometown team Norfolk (VA) of the Piedmont League.

Major League Baseball and its 28 clubs will celebrate the 125th anniversary of professional baseball in 1994.

The first professional baseball team, the Cincinnati Red Stockings, was formed in 1869. Prior to that, the game was played on an amateur basis only.

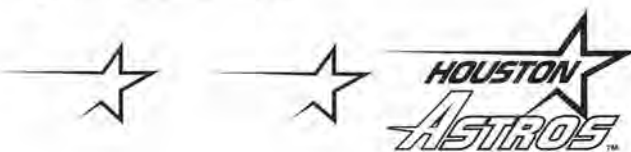

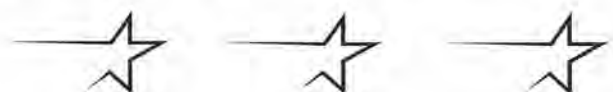

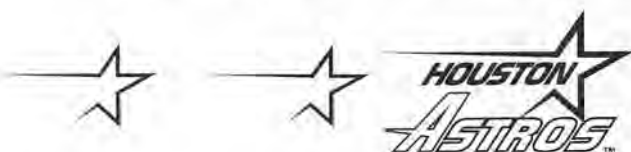

As part of this year's festivities, MLB Properties has designed a special 125th Anniversary logo.

The logo is a variation of the Major League Baseball logo created for baseball's centennial celebration in 1969.

Throughout the season, MLB and the clubs will celebrate the Anniversary through various events and ceremonies. Teams will wear a commemorative patch on their uniforms and specially licensed merchandise will be available.

Houston has had only four home games postponed because of rain since its entrance into the National League in 1962. The first three were "rained out" and all occurred in the first season (April 23 vs. Philadelphia, June 13 vs. New York, and July 16 vs. Chicago.) The fourth game was a "rain in" and occurred on June 15 of 1976 when as much as 10 inches of rain fell in the Houston area virtually flooding the entire city.

Only members of the Houston Astros and the visiting Pittsburgh Pirates were able to make their way to the Astrodome. Umpires, fans and stadium personnel were unable to reach the ballpark.

While Houston pitchers have tossed the most no-hitters in baseball in their 32-year history, Astros batters have been among the toughest to shut down. Houston has been no-hit only twice in its history and has not been held hitless since April 30, 1969, when Jim Maloney of Cincinnati did it (3,805 games entering 1994). Only the Cubs have gone longer without being no-hit (September 9, 1965 by Sandy Koufax), a span of 4,167 games.

Former Houston Colt .45 John Paciorek holds the distinction of having the most at-bats of any of the handful of players who have ended their careers with a perfect 1.000 batting average. His lone appearance in the majors came on September 29, 1963 for the Colts against the New York Mets and he went 3-for-3 with three RBI and four runs scored. However, a back injury prevented him from ever returning to the major leagues.

Roloids Scoring Formula: saves = 3 points; relief wins = 2 points; relief losses = -2 points; blown saves = -2 points.

BLOWN SAVE DEFINITION: When a relief pitcher enters a game in a save situation and departs with the save situation no longer in effect because he has given up the lead, he is charged with a blown save. (If the save opportunity still exists when he leaves the game, he is not charged with a save opportunity. If the pitcher has not given up the lead when he leaves the game, though the save opportunity may no longer exist, he is not charged with a save opportunity.) This method has been a part of the Roloids formula since 1988.

Pittsburgh Pirates
St. Louis Cardinals

NL EAST

ASTROS HOME RUNS IN HOUSTON

Outfielder Jimmy Wynn owns the distinction of having hit the most home runs by a Houston player in Houston throughout the history of the franchise with a total of 97. Wynn hit 93 of his roundtrippers in the Astrodome (also a club record) and four in old Colt Stadium. And, speaking of old Colt Stadium, the record for Houston homers in that facility stands at 21 by Bob Aspromonte.

The first home run ever hit by a Houston player in the National League came on opening day in 1962, April 10. Roman Mejias connected off Chicago pitcher Don Cardwell in the third inning with two men on base. Mejias also homered off Al Lary in the eighth inning with two more men on to account for the third Colt .45s home run of the game. Hal Smith had hit one in the third inning.

The first opposition home run came in the seventh inning of the same game when the Cubs' Ernie Banks hit one off Bobby Shantz.

The game was Sosa's first major league appearance and he went on to pick up the only save of his career that night.

ASTRODOME FACTS

The Astrodome is the world's first all-weather, multi-purpose domed stadium, and opened its doors for the first time on April 9, 1965 when the Astros played host to the New York Yankees in an exhibition game.

- officially named the Harris County Domed Stadium, the Astrodome was financed by an \$18 million general obligation bond which passed in January, 1961.
- the cost of the project, including off-site improvements, land acquisition, engineering fees, site roads and parking lot paving, was \$31.6 million.
- the Astrodome and its adjoining facilities - the Astrohall and Astroarena - are operated by Astrodome USA.
- under a lease agreement with Harris County that extends with options to 2024, Astrodome USA pays an annual lease fee, plus all operating costs for the right to sub-lease the facilities

RENOVATIONS

A new artificial turf for baseball and an enlarged seating capacity are two of the highlights of a \$60 million expansion project which was completed in the fall of 1989.

- the first stage of the renovation saw the concreting of the floor, which had been dirt since the stadium first opened in 1965.
- a new Monsanto "Magic Carpet" system provides separate turfs for football and baseball...the new turfs are housed in storage pits in center field and are rolled out on a cushion of air...each turf is marked for its sport and the new system substantially reduces the time needed for conversion of the stadium.
- the Astrodome is the first stadium in the country to have two separate playing surfaces at its disposal.
- after pioneering the idea of luxury suites in 1965 with Sky Boxes, 66 new Star★Columbia Suites have been added on the Club Level.

STADIUM COMPLEX COVERS 260 ACRES

The stadium structure covers nine-and-a-half acres of land, while the entire Astrodomain complex covers 260 acres.

- the outside diameter of the Astrodome structure is 710 feet...the stadium's floor is approximately 25 feet below normal ground level, affording minimum vertical travel by fans.

COMFORTABLE CUSHIONED, UPHOLSTERED SEATING

There are 51,000 cushioned, upholstered (seat and back) theatre seats in the Astrodome, along with approximately 4,000 pavilion seats (wooden back, upholstered seats).

- seating capacity for baseball is 54,313; for football, 63,001; for conventions, 68,000; and a maximum of 74,000 for boxing or similar events.
- seating can be arranged to accommodate any type of sports or meeting from rodeos to national political conventions.
- to convert from baseball to football seating, the stands holding 10,000 seats on the Field Level rotate on steel rails until they parallel the football sidelines.
- seating is arranged on six levels, allowing in effect for six front rows...all seats face the center of the playing area for baseball and football with the radius point of the stadium 20 feet behind second base on the baseball diamond.

DIAMOND VISION AND SCOREBOARD

The famous Astrodome scoreboard and home run spectacular were dismantled in September, 1988 to facilitate the 10,000-seat expansion program.

- two Diamond Vision screens, a large matrix board, two auxiliary matrix boards and a game-in-progress board replace the old system.
- each Diamond Vision is a 26 1/2 by 37 1/2-foot instant replay screen that brings field action up close for spectators...the screen's clear pictures are the product of 43,200 35mm CRTs (a home television is one CRT).
- the Diamond Vision brain is a state-of-the-art television production facility operated by a nine-person crew that includes technicians and cameramen.

- auxiliary matrix boards in left and right field display game information, messages, animation and out-of-town scores...the game-in-progress board is located behind home plate. These two systems became operational during the winter of 1988.
- a 26 by 34-foot matrix board was constructed in left field and began operation during the 1989 baseball season...this board is the primary source of messages, animations, out-of-town scores and statistics...the scoreboard system, built by the Fairtron Corporation, is controlled by high-level personal computers and is operated by a three-man crew.
- the system is the largest computer-run matrix board in the nation.

RAMPS, ESCALATORS PROVIDE EASY ACCESS

Wide, low-pitched ramps and two sets of escalators provide easy access to seats...the entire stands can be emptied in nine minutes with a maximum crowd.

UNIQUE ROOF AND LIGHTING SYSTEM

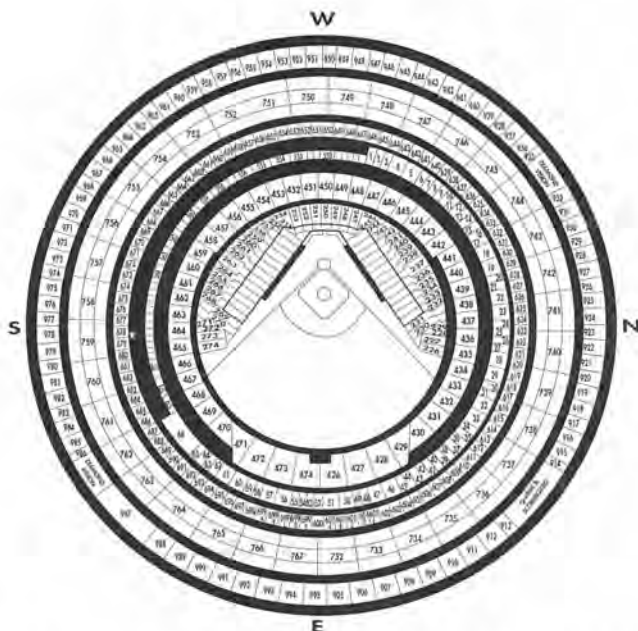

The permanent roof of the Astrodome, which has a clear span of 642 feet (twice that of any previous structure), has a maximum height of 208 feet above the playing field, which would allow the construction of an 18-story building under the roof.

- the roof design consists of a steel lamella frame incorporating trussed beams arching upward to meet at the center, braced in a diamond pattern.
- the steel skeleton supports a roof containing 4,596 cast acrylic sheet skylights (7'2" by 3'4").
- the roof can withstand hurricane winds of 135 miles per hour and gusts up to 165.
- the field is illuminated to an average brightness of 265 footcandles by 800 floodlights...the total electric power consumed exceeds 18,000 KVA, more than that needed by a city of 9,000 population.

MORE THAN 6,000 TONS OF AIR CONDITIONING

The stadium is completely air-conditioned with 6,600 tons of cooling capacity during events.

- the system circulates 2.5 million cubic feet of air each minute.
- also every minute, 250,000 cubic feet of fresh air is drawn into the stadium, conditioned by electronic filters and activated charcoal odor removers, then distributed through the system...smoke and hot air are drawn out through the top of the roof.

RULES OF INTEREST

PLAYER LIMITS: Forty from September 1 to opening day; Twenty-five from opening day to August 31, although teams have the option to carry 24 players instead of 25.

TRADING REGULATIONS: For assignment from one major league club to another, waivers are necessary ONLY beginning August 1st and ending on the day following the close of the championship season. At all other times, no waivers are necessary for trades at the major league level.

WAIVER PERIODS: End of season to 30th day of the season; 31st day of the season to July 31; August 1 to end of season. Players are available on waivers in reverse order of standings at the time waivers expire, if more than 30 days after start of season; otherwise in reverse order of standings at the close of previous season.

QUALIFICATIONS FOR A ROOKIE: Not more than 130 at-bats or 50 innings pitched in the major leagues during a previous season or seasons, nor more than 45 days on a major league roster during the 25-player limit (excluding time in military service).

NIGHT GAME: Any game that starts at 5 p.m. or later.

QUALIFICATIONS FOR BATTING CHAMPIONSHIP: Highest batting average based on a minimum of 502 plate appearances, which include official times at bat, bases on balls, hit by pitch, sacrifice hits, sacrifice flies and times awarded first base due to interference or obstruction.

QUALIFICATIONS FOR PITCHING CHAMPIONSHIP: Lowest earned run average with a minimum of 162 innings pitched.

SAVE RULE: Credit a pitcher with a save when he meets all three of the following conditions: (1) He is the finishing pitcher in a game won by this club; and (2) He is not the winning pitcher; and (3) He qualified under one of the following conditions: (a) He enters the game with a lead of no more than three runs and pitches for at least one inning; or (b) He enters the game, regardless of the count, with the potential tying run either on base, or at bat, or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces); or (c) He pitches effectively for at least three innings.

DETERMINING BATTING AVERAGE: Divide the number of hits by the number of at-bats.

DETERMINING AN EARNED RUN AVERAGE: Multiply the number of earned runs by nine; take the number and divide it by the number of innings pitched.

DETERMINING SLUGGING PERCENTAGE: Divide the total bases of all safe hits by the total times at bat. (At-bats do not include walks, sacrifices, hit by pitcher, or times awarded first base because of interference or obstruction).

DETERMINING FIELDING AVERAGE: Divide the total putouts and assists by the total of putouts, assists and errors.

CONSECUTIVE HITTING STREAKS: A consecutive hitting streak shall not be terminated if the plate appearance results in a base on balls, hit batsman, defensive interference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

CONSECUTIVE-GAME HITTING STREAKS: A consecutive-game hitting streak shall not be terminated if a player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference or a sacrifice bunt. The streak shall terminate if the player has a sacrifice fly and no hit.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

DETERMINING ON-BASE PERCENTAGE: Divide hits plus total bases on balls plus hit-by-pitch by at-bats plus total bases on balls plus hit-by-pitch and sacrifice flies (for purposes of this percentage, ignore being awarded first base on interference or obstruction).

DETERMINING PERCENTAGE OF GAMES WON AND LOST: Divide the number of games won by the total games won and lost.

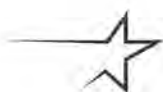

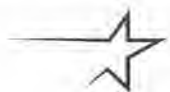

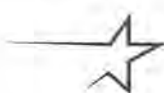

DETERMINING THE MAGIC NUMBER: Determine the number of games yet to be played, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

POST-SEASON ALL-STARS - Jim Dougherty, Chris Hill and Roberto Petagine

FSL PLAYERS OF THE WEEK - Tim Evans (6/8-14) and Brian Hunter (7/12-18 & 8/24-30).

Mike Schmidt of Philadelphia is the only player in the history of the Astrodome to strike one of the overhead speakers in fair territory. On June 10, 1974, Schmidt's mammoth blast struck a speaker in center field (since removed) and bounced back to short center field, holding him to a single.

QUAD CITY Midwest League-A

With their home field submerged under six feet of water from the neighboring flooded Mississippi River, the Quad City River Bandits were forced to play all of their games after June 23 away from home. Despite this unusual hardship, however, the club remained competitive through the season's second half.

After struggling somewhat during the first part of 1993, second baseman **Henri Centeno** and outfielder **Tim Evans** caught fire for the season's second half, batting .305 and .301, respectively.

Evans also had Quad City's longest batting streak of the season, hitting safely in 13 consecutive games.

Jeff Ball put up impressive power numbers, blasting 14 homers and knocking in 76 runs despite having just 389 at-bats and missing a significant amount of time due to injury. He also led the club with a .293 batting mark and 40 stolen bases in 59 attempts. Second baseman **Kary Bridges** established himself as one of the league's top contact hitters, going 99 consecutive plate appearances without a strikeout and fanning just 18 times in 263 overall at-bats. Third baseman **Eddie Ramos** played in a team-high 125 games and finished second on the team with 11 homers and 63 RBI.

The pitchers were led by **Chris Holt**, who tossed complete-games in each of his final five outings of the season. Holt fanned 176 batters, second most in the league, allowed just 54 walks and held opponents to a .229 average. Reliever **Mark Loughlin** compiled an 0.29 ERA over his first 30.1 innings pitched, and **Chuck Smith** went 3-0 with a 0.62 ERA in four starts from June 16 to July 11.

ASTROS SPRING TRAINING

SPRING TRAINING INFORMATION

Osceola County Stadium
1000 Bill Beck Boulevard
Kissimmee, Florida 34744
(407) 933-6500

Osceola County Stadium has been the spring home of the Astros since it opened in 1985.

ASTROS SET FOR 10TH KISSIMMEE SPRING

The Astros return to Kissimmee in 1994 to begin the tenth Grapefruit League season at their Osceola County Stadium Complex.

The Astros moved to their state-of-the-art facility in 1985 after spending the previous 21 years in Cocoa, FL. When it opened, the complex was hailed as the best of its kind in Florida, and its unique "cloverleaf" design has served as host to many local civic events.

The playing field at Osceola County Stadium, which hosted the Astros 100th game in Kissimmee last year, was recognized by *Sports Turf Magazine* and the Beam Clay Company as its Baseball Field of the Year for 1990-91. Recent improvements to the stadium and surrounding grounds have included renovation of press, ticket office and concessions areas and padding for the outfield fences.

The Astros opened their facility on March 3, 1985 when a record crowd of 7,210 saw the Astros defeat the Yankees. The Astros surpassed the 500,000 mark in total attendance at Osceola in 1993, drawing 57,400 to 13 home games.

Houston first conducted spring training in Apache Junction, AZ in 1962 and 1963 before moving to Cocoa in 1964.
